

## The Purpose of this Book

With growing concerns about environmental issues, many of us want to help better the environment but feel overwhelmed by the magnitude of climate change issues. This interactive project encourages colorful, artistic expression while hopefully inspiring reflection on how we treat our waste. The dream of this project is that a few more homes join the composting movement.

This coloring book provides information on why composting is good for the environment and different options for setting up a compost system. Enjoy coloring these pages, and please take a moment to consider what you can do to make the world a little better.
